RE: ALDI, Inc. Expansion and Renovation
Center Valley, PA

Dear Dean,

Throughout my career I have made it a practice to personally recognize members of the project team that have gone above and beyond expectations to make a project successful. On the ALDI, Inc. Center Valley, PA Expansion and Renovation project, Everett Petty was just such a person. The Center Valley project has been the second project that I have been fortunate enough to have Everett as a part of the team. His knowledge of the scope of work, ability to coordinate with other trades, resourcefulness in solving problems, quality of work, safety, and over-all work ethic have made it a pleasure to work with Everett. I hope to work with him on the next project as well.

Please pass along my appreciation internally at LTI Contracting as well as to Everett.

Sincerely,

AM King Construction Company, LLC
