RE: LETTER OF RECOMMENDATION FOR LTI CONTRACTING

To Whom It May Concern:

Ryan Companies US, Inc. has completed three (3) high rise refrigerated distribution projects in Lake City, FL; Cedar Falls, IA; and most recently in Denton, TX. Ryan hired LTI Contracting for low temp panel and roof construction work for these facilities and numerous smaller projects.

These projects were complex low temperature construction projects due to multiple roof levels, multiple temperature chambers, and heavy coordination with the Owner's vendors. LTI Contracting has proved to Ryan why their reputation is so good throughout these projects and beyond. LTI Contracting was an essential member of Ryan's team and provided a needed leadership in the overall coordination with the other trades involved in the low temperature construction process.

I will not hesitate to contact LTI Contracting for future low temperature construction, and they will be among the first that I call. I thoroughly enjoyed working with them. They are team players and contribute greatly to a successful project.

Please feel free to contact me if you need further information at 612-492-4380.

Sincerely,
RYAN COMPANIES US, INC.

Todd Schell, LEED AP
Team Leader – Distribution and Cold Storage
